

TECHNO ADHESIVE NO. 440
ZERO VOC
EASY SPRAY FLEXIBLE FOAM ADHESIVE

BASE:	Resin Modified Rubber
VISCOSITY:	Brookfield 1/20 55 ± 5 cps.
SPECIFIC GRAVITY:	7 ± .1 Lbs./Gal.
SOLVENT:	Acetone
SOLIDS:	% by Weight 22% ± 1%
COLOR:	Clear or Red
DESCRIPTION:	This is a spray applied flexible foam cement for bonding all types of foams to themselves and various substrates, such as cloth, wood, or metal. It has excellent application characteristics including quick tack, high coverage, and high strength bonds with excellent temperature resistance. It produces soft non-dimpling bonds which will not harden or darken with age. Fabrics in contact with this bond line will not become stained after aging for long periods even when exposed to sunlight.
APPLICATION:	Spray Atomization pressure: 10-15 psi. Fluid Pressure: 5-10 psi
COVERAGE:	Sq. Ft./Gal. 400
CAUTION:	This cement is flammable. Keep away from sparks and open flames, and provide adequate ventilation.
SPRAYING HINT:	Obtain pattern, spray on cardboard so that the adhesive just damps the cardboard. Then try on foam.
